YOUR MONTHLY REPORT FROM SOCORRO ELECTRIC

SEPTEMBER 2022

The SEC Foundation is honored to support 4-H members in our service area with \$5,000!

Every year, our SEC team looks forward to attending the county fairs as it is one of the many ways that we can connect and contribute back to our communities. Annually, the SEC foundation supports Washington, DC youth tours, awards scholarships to colleges, universities, and trade schools, and recognizes local 4-H students' hard work and dedication to their animals by providing additions for the sale of their animals.

The SEC Foundation is a 501(c)3 organization recognized by the IRS and all donations must go to another non-profit entity. The funds from the SEC Foundation are not an expense of the cooperative but come from unclaimed Capital Credit retirement checks returned to SEC. SEC attempts to locate those members for two years before moving the funds into the foundation account.

Additionally, attending these fairs gives SEC a chance to get out in to the community and meet each of you face-to-face. We enjoy answering questions by providing information and/or documentation on various topics, and by supporting our youth of tomorrow.

Congratulations to all of the hard working 4-H members this year!

2021 Capital Credit Allocations

In 1995, the International Co-operative Alliance adopted the seven cooperative principles that most co-ops around the world still operate by today. The **members' economic participation** is one of the seven principles in which members contribute equally to, and democratically control the capital of the cooperative. This benefits members in proportion to the business they conduct

with the cooperative, rather than on the capital invested. Economic participation is a unique cooperative principle not shared by municipal or investor-owned electric utilities.

An allocation is made annually for each member, based on the amount of electricity purchased. An allocation is the member's share of the net margins. The Co-op sets this money aside to be used as operating capital for improvements and maintenance over a period of years. These allocations will be retired/paid at a future date as determined by the SEC Board of Trustees.

WHAT DOES THAT MEAN TO YOU? The allocations of the 2021 margins will be reflected on the Aug. 31, Sept. 15, Sept. 30, and Oct. 15 bills for all active accounts. This allocation represents the Pro-rata share of the margins for each member who had service with SEC during 2021. Your 2021 Patronage Capital Allocations will be added to your Patronage Capital Account.
